

NEUROIMMUNOLOGICAL COLLOQUIUM
Autumn/Winter 2020-2021

Mondays from 16:00h to 17:00h

Leitung: Prof. Dr. med. Friedemann Paul & Prof. Dr. Carmen Infante Duarte

Online Seminar Series

- November 23rd** **Carmen Infante Duarte, PhD**
Department of Experimental Neuroimmunology, Charité-Universitätsmedizin Berlin, Germany
Imaging tools to monitor alterations of the brain extracellular matrix in vivo.
- November 30th** **Divija Desphande, PhD**
Microbiology, Infectious Diseases and Immunology, Charité-Universitätsmedizin Berlin, Germany
Role for the neuropeptide POMC in peripheral neuropathy.
- December 14th** **Stefan Jordan, PhD**
Microbiology, Infectious Diseases and Immunology, Charité-Universitätsmedizin Berlin, Germany
Nutrition, Microbiome & Immunity: Food energy regulates inflammation.
- January 18th** **Jing Guo, PhD**
Department of Radiology, Charité-Universitätsmedizin Berlin, Germany
In vivo cerebral Magnetic Resonance Elastography (MRE): Models, methods and applications.
- February 1st** **Jason Millward, PhD**
Max-Delbrück-Center for Molecular Medicine, Berlin, Germany
Dynamic changes in brain ventricles during neuroinflammatory disease.
- February 15th** **Josephine Heine, M.Sc.**
Cognitive neurology Laboratory, Charité-Universitätsmedizin Berlin, Germany
Outcomes of autoimmune encephalitis - Synthesising insights from macroscopic brain networks and patient experience.

Credit points: Deutsche Ärztekammer credits (1 CME/session) and MedNeuro stickers available.
